

FLAT MOTOR ZPA

NO: 303

THE APPLICATION: Zoned Product Accumulation

THE PRODUCT: Flat Motor Driven Roller Conveyor

THE INDUSTRY: Consumable Goods

THE NEED: A household cleaner manufacturer needed to replace a dysfunctional accumulating conveyor. Their current conveyor allowed products to feed into the palletizer when it was not ready, causing the system to jam.

THE SOLUTION: Omni Metalcraft Corp. designed a system utilizing 24 Volt Flat Motor Driven Roller Conveyor for zero pressure accumulation. The flat motor conveyor provided an affordable solution that was clean in design and quiet while in operation. Omni pre-wired the conveyor, cutting installation time in half and saving the customer money and hassle.

■ Quiet operation

■ Zero pressure accumulation

■ Pre-wired
