

**DAIRY  
PROCESSING  
SANITARY  
CONVEYOR  
NO: 402**

**THE APPLICATION:** Transporting bulk cheese to a packaging operation

**THE PRODUCT:** Ultimate Class Stainless Steel Sanitary Belt Conveyor

**THE INDUSTRY:** Food Manufacturing

**THE NEED:** A dairy processor needed a sanitary design conveyor for ultimate cleanability and sanitation access. The conveyor also needed to withstand an aggressive washdown environment often seen in dairy processing.

**THE SOLUTION:** Omni Metalcraft Corp. provided an Ultimate Class Stainless Steel Sanitary Belt Conveyor designed to meet the customer's sanitary design criteria. The U-Class belt conveyor incorporated industry accepted sanitary designs as well as a custom designed belt take-up unit and motorized drive pulley to withstand the rigors of the dairy processing environment.

■ 304 stainless steel framework

■ Continuous ground and polished welds

■ Tool-free removable and adjustable side guides

■ Clean out ports for maximum sanitation and inspection access

■ USDA accepted food grade belt

■ Solid UHMW belt carry way

■ Motorized stainless steel drive pulley

■ Custom belt take-up
