

DUAL DIRECTION DISCHARGE CONVEYOR NO: 407

THE APPLICATION: Diverting a Roll in Either Direction off the Mainline

THE PRODUCT: Tilting Troughed Slider Bed Belt Conveyor

THE INDUSTRY: Household Consumer Products

THE NEED: A plastic wrap manufacturer needed to transport rolls of their product 60 feet with the capability of discharging in either direction onto a worktable.

THE SOLUTION: Omni Metalcraft Corp. provided a 55 foot long Troughed Belt Conveyor with a 5 foot Troughed Dual Discharge Conveyor. When the rolls reached the end of the line they could be discharged onto a work table on either side for final packaging.
