

BALL TRANSFER FILLING WORKSTATION NO: 703

THE APPLICATION: Box Filling Workstation

THE PRODUCT: Ball Transfer with a Pneumatic Actuated Pan

THE INDUSTRY: Durable Goods

THE NEED: A home security component manufacturer needed to replace an existing packaging system. New workstations were needed for more ergonomic and simplified box filling.

THE SOLUTION: Omni Metalcraft Corp. provided a Ball Transfer Table with a Pneumatic Actuated Pan for filling boxes. The pan actuates, removing the box from the ball transfer, holding the box in place for filling then disengaging to allow workers to easily transfer the boxes onto the main line.

■ Pneumatic actuated pan

■ Hand valve operated

■ 150 lb capacity ball transfer units
