

**HEAVY DUTY
PLASTIC BELT
CONVEYOR
NO: 502**

THE APPLICATION: Take away conveyor for cement board

THE PRODUCT: Heavy Duty Plastic Belt Conveyor

THE INDUSTRY: Building Material Manufacturing

THE NEED: A Manufacturer required a heavy duty, structurally sound, cleanable conveyor to withstand the cement board manufacturing environment. This conveyor was needed to transport cement board after being processed.

THE SOLUTION: Omni Metalcraft Corp. provided a Heavy Duty D-Class Plastic Belt Conveyor with structural side frames and washdown duty equipment. The conveyor was designed to withstand frequent spray down as well as incidental fork lift contact.

■ Customer requested washdown 2 HP Drive

■ Welded frame

■ Overhead drive

■ Open style belt design

■ D-Class epoxy paint

■ 8 in. structural channel frames
