

BIN TILTER NO: 805

THE APPLICATION: Ergonomic Manual Parts Unloading

THE PRODUCT: Hydraulic Bin Tilter

THE INDUSTRY: Automotive

THE NEED: An automotive manufacturer needed to tilt large bins 90 degrees to provide ergonomic access to assembly parts. The tilter the customer currently had in place had been experiencing premature wear, and therefore, required a better unit.

THE SOLUTION: Omni Metalcraft Corp. provided a custom 4,500 lb. capacity Hydraulic Bin Tilter. Fork pockets were added to allow the unit to be moved easily throughout the facility. The power unit was mounted internally for a clean, compact solution.

■ Fixtures for additional guides to hold bin

■ Hydraulic actuation

■ Fork pockets

■ 90° Tilt

■ Rubber lip for protection

■ Customer specified paint colors
