

110794-GP

Load Capacity	3030 lbs
Temp. Range	-10°F to 225°F

Features

- ABEC-1 precision
- Hardened chrome steel body
- Precision ground finish
- Front & rear seals
- Front & rear shields
- Ball retainer
- Replaceable
- Grease packed

Application Info

Recommended for very heavy loads. Metal shields deflect large particle debris and protect a rubber contact seal that is very effective against fine dust and other small particle debris. The seal adds rotational drag and is not recommended for gravity applications with light product. Recommended for powered applications where roller resistance is not an issue and the roller is constantly rotating.
