

### 115137

Load Capacity	450 lbs
Temp. Range	-10°F to 225°F
Max Speed	2500 rpm

#### Features

- Semi-Precision
- Machined metal housing
- Heat treated mild steel
- Front & rear seal
- Ball retainer
- Replaceable
- Grease packed

#### Application Info

Recommended for heavy loads and high speeds in moderately dirty environments. Rubber contact seals protect against dirt and debris but may be damaged by overly abrasive materials. The seals add rotational drag and are not recommended for gravity applications with light product. Recommended for high speed powered applications where roller resistance is not an issue and the roller is constantly rotating.
