

BLOCK HANDLING CONVEYOR NO: 401

THE APPLICATION: Curve Conveyor for handling concrete blocks

THE PRODUCT: Blockveyor Power Belt Curve

THE INDUSTRY: Concrete Block and Cement

THE NEED: Concrete block manufacturers need to be able to continue their conveyor lines around corners, toward palletizers

THE SOLUTION: Omni Metalcraft Corp. can provide a Blockveyor belt curve that will stand up to this demanding environment, keeping products oriented where they need to be, when they need to be.

■ Abrasion resistant urethane belt for demanding applications

■ Leg cross bracing for added stability

■ Angled catch pans to retain debris for easy removal

■ Product orientation kept where you need it

■ Shaft mounted drive kept above debris

■ Easy access maintenance covers for ease of clean up

■ Various shape and size product capability

■ Powered or gravity transition rollers available
