

DUAL BELT EXHAUST CONVEYOR NO: 406

THE APPLICATION: Conveying a Variety of Vehicle Exhausts

THE PRODUCT: Dual Belt Conveyor

THE INDUSTRY: Automotive

THE NEED: An automotive manufacturer needed to replace an existing manual operation. The conveyor system needed to accommodate the exhaust's awkward shape and multiple sizes.

THE SOLUTION: Omni Metalcraft Corp. provided a Dual Lane Belt Conveyor that allowed for operator load and unload access. An air motor was supplied per the customer's specifications.
