

PALLET PACKER STATION WITH CDLR NO: 106

THE APPLICATION: Powered discharge conveyor with provisions for lift frame from destacker

THE PRODUCT: Chain Driven Live Roller Conveyor

THE INDUSTRY: Industrial Steel

THE NEED: Manufacturer required powered discharge conveyor for sheet steel destacker to replace current gravity conveyor that was not providing an ideal solution.

THE SOLUTION: Omni Metalcraft Corp. provided specially designed chain driven live roller conveyor to replace the manual gravity conveyor. The chain driven live roller conveyor was built to the customer's specifications for easy integration with existing equipment.

■ Filler plate for maintenance

■ Scalloped frames for sheet destacker interface

■ Custom length and width to work within existing destacker
