

GREEN ENERGY and ELECTRIFICATION are Here

As the world transitions into green energy and Electrification, Omni Metalcraft is excited to announce we are dedicating a team of experienced professionals to focus on the needs of this growing sector. With our long history of innovation and material handling experience, Omni is the perfect partner to address the future challenges of this expanding industry.

The OMNI Advantage

- Sharing our applications knowledge with 45+ years of comprehensive experience.
- We are a Build-to-Order company, meeting the unique needs of every project. No matter the size.
- Well-established strategic partnerships with vendors who supply key critical components in the industry.
- Multi-faceted company covering a broad variety of products and services.

Areas of EMPHASIS

- Automotive Assembly and Manufacturing
- Tier-One Automotive Suppliers
- EV Battery Assembly and Handling
- Charging Infrastructure Handling
- Battery Recycling

Chain Driven Live Roller Conveyor | 24V Motor Driven Roller Conveyor | Activated Roller Belt™ Conveyor | Reciprocating Vertical Conveyor | Continuous Vertical Conveyor | Modular Table Top Conveyor | Stackers and Destackers | Metal Belt Conveyor | Modular Plastic Belt | Gravity Conveyor | Chain Conveyor | Stainless Steel | Lift and Rotate | Chain Transfer | Belt Conveyor | Slat Conveyor | Transfer Cars | Turntables | Up-Enders | Tilters

Omni Metalcraft Corp. has been supplying material handling components to loyal customers spanning nearly five decades. We take pride in providing high-quality standard and custom products, tailored individual service, and value that each customer deserves. In continuance of our goal to help you provide the best battery handling solutions, we have strategically aligned a talented team to focus specifically on the unique needs of our partners in the OEM, Distributor, and System Integrator markets. We support more than just product, we support you!

Putting Energy In Motion

**Built to Your Specifications
 Private Label Your Conveyor
 Your Preferred Brand of Components
 Superior Support Package**

Combining your team's machine design and applications expertise with our 45+ years of conveyor experience will result in the optimum conveyor solution to interface with your equipment.

BATTERY HANDLING AND PALLETIZATION

Activated Roller Belt™ Conveyor

- *Singles and sorts multiple products*

Belt Conveyor

- *Ideal for operations such as assembling, sorting, inspecting or transporting*

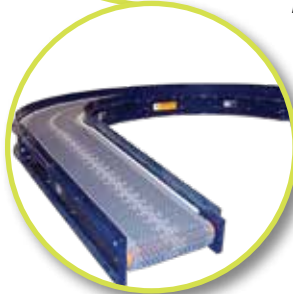

Continuous and Reciprocating Vertical Conveyor

- *Continuous flow of products between two levels*

24VDC Driven Conveyor

- *Ideal for smooth and quiet operation zero pressure accumulation*

Modular Plastic Belt Conveyor

- *Positively sprocket driven*

Gravity Roller Conveyor

- *Multiple options of frame and roller configurations*

Stackers and Destacker

- *Used to stack or destack pallets, or racks in an automated environment*

Chain Driven Live Roller Conveyor (CDLR)

- *Ideal for transporting loaded pallets, racks, and dunnage*

Turntables

- *Manual or Powered Turntables rotate to the desired angle required for your application*
